## eScript One InQuiry View Transcription Release Notes

## What's New?

DeliverHealth is pleased to announce an update to the View Transcription action in the InQuery workflow folders. The PDF transcription viewer has been replaced with the classic viewer, which includes the action button ribbon.

### Transcription Viewer

When clicking **View Transcription** in the **Actions** column of a workflow folder grid, the transcription viewer will open. The action button ribbon will be displayed at the top of the viewer with options such as print, fax, info, and more. Options may differ depending on client/user setup and transcription status.

The screenshot displays the DeliverHealth Workflow interface. On the left is a navigation sidebar with options like Home, Patients, Search All, Workflow (selected), Faxes, ShadowPrint, ShadowLink, and Reports. The main area shows a 'Workflow' summary with status cards for Not Typed (92), Review (19), Review 2 (2), Clinician Sign (4), Referral (8), Final (10), and Final 2 (13). Below this is a search bar and a table of transcription items. A red box highlights the 'View Transcription' button in the Actions column of the first row, with a red arrow pointing to a pop-up 'Transcription Viewer' window.

Patient ID	Clinician	Authenticator	Document Type	Location	Review Status	Comments	Actions
<input type="checkbox"/> R3	Hospital Admin	Hospital Admin	Chart	East Campus			View Transcription   ▾
<input type="checkbox"/> 5271170	Attending Jacoby ASR	Attending Jacoby	Imaging	East Campus			View Transcription   ▾
<input type="checkbox"/> ASD0005271007AWD	Resident Johnson	Attending Jacoby	Account	West Campus	Reviewed		View Transcription   ▾
<input type="checkbox"/> 5271142	Resident Johnson	Attending Jacoby	Imaging	East Campus	Reviewed		View Transcription   ▾

The 'Transcription Viewer' window shows a ribbon with actions: print, fax, download, previous, next, info, edit, play, E-Sign/next, E-Sign, Patient info, and exit. Below the ribbon, it displays 'Chart Note' for Patient ID: R3, Clinician: Hospital Admin, and the text: 'The patient presents with persistent headaches, which began approximately 2 weeks ago.'

Clicking on a transcription in any column of the grid other than Actions will open the transcription in **Edit** mode.

## Minimum Application Requirements

- Operating system: Windows 10
- Web Browser: Chrome, Edge, Firefox
- RAM: 1 GB or higher
- Processor: 1 GHz or faster (32 or 64-bit Architecture)
- Hard Drive Free Space: 1 GB or higher
