## **eSOne InQuiry Dual Resident/Attending Email Notifications Release Notes**

## What's New?

DeliverHealth is pleased to announce an update to the folder notification emails when the dual resident/attending workflow is in use. The dictator and authenticator(s) will receive a notification email when a transcription enters the Preliminary folder, given they have subscribed to email notifications. This replaces the prior behavior of sending the notification email to the authenticator only after the dictator has signed the transcription.

No changes have been made to email notifications when the dual resident/attending workflow is not used.

### Minimum Application Requirements

- Operating system: Windows 10 or newer
- Web Browser: Chrome, Edge, Firefox
- RAM: 1 GB or higher
- Processor: 1 GHz or faster (32 or 64-bit Architecture)
- Hard Drive Free Space: 1 GB or higher
