## **eSOne InCommand InVision Date Fields Added to MT Productivity Summary Report**

### **Release Notes**

## What's New?

Exciting news for our users of the MT Productivity Summary report! We're thrilled to introduce two new fields: Date Delivered and Date Transcribed. These additions not only enrich the depth of data but also offer enhanced functionality for sorting and grouping within the report. Now, you can easily track when a task was delivered and transcribed, providing invaluable insights into workflow timelines. Stay organized and gain deeper insights with these new features in your MT Productivity Summary report!

The Date Delivered and Date Transcribed fields can be found in the "available fields" list when building the custom column report. Drag the fields to the grid to see the dates in the report data and optionally sort by them or drag them to the grouping row to group the report by dates.

### Minimum Application Requirements

- Operating system: Windows 10
- Web Browser: Chrome, Edge, Firefox
- RAM: 1 GB or higher
- Processor: 1 GHz or faster (32 or 64-bit Architecture)
- Hard Drive Free Space: 1 GB or higher
