eScription One Interfaces, Sync Scribe, Notifications 08/07/2023
Release

What's New?

DeliverHealth is pleased to announce the release of updates to interfaces and Scribe Room.

Updates to Interfaces

- Additional Orbita Entity Fields - Insurance Group and Insurance Policy fields are now available in Orbita ShadowLink patient formats.
- Athena Conversion error resolved - Conversion errors caused by an invalid property will now result in a NULL value rather than an error.
- Re-exporting – When re-exporting a job from Transcription Deliveries, only the selected rule will be triggered, rather than all passed rules.

Notification Services

- Resolved issue with InVision report notifications returning errors for invalid session keys.
- Added Synchronous Scribing notifications.

Synchronous Scribing

- Added tracking for Scribe Room participants.
- Added Synchronous Scribing notifications

Application Requirements

- Operating system: Windows 10 or Higher

- Web Browser: Chrome, Edge, Firefox

- RAM: 1 GB or higher

- Hard Drive Free Space: 1 GB or higher
