## **eScript One Mobile for iOS v3.10 Release Notes**

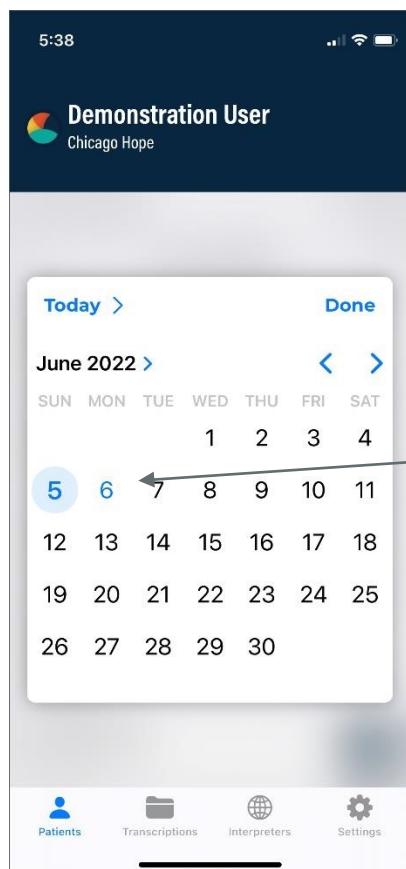

## What's new?

DeliverHealth is pleased to announce the release of eScripton One Mobile for iOS v3.10. This version includes the update below, as well as several other minor bug fixes.

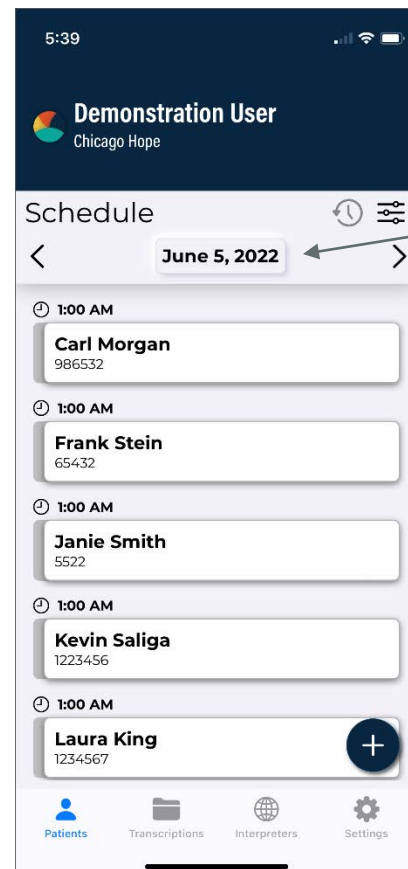

### Solved Issue

Fixed a calendar syncing issue to ensure the correct date appears on login. Below are some examples of how it works.

- Ex. 1: Today is the 6<sup>th</sup>, and you were looking at the 5<sup>th</sup>. When you log in next, the date will be on the 5<sup>th</sup>.
- Ex 2: Today is the 6<sup>th</sup> and you're looking at the 6<sup>th</sup>. You log out for the day, then come in and log in on the 7<sup>th</sup>. The schedule will be on the 7<sup>th</sup>.
- Ex 3: Today is the 6<sup>th</sup> and you were looking at patients on the 8<sup>th</sup>. When you log out and come back in, the schedule will be on the 8<sup>th</sup>.

Viewing the 5<sup>th</sup> on the 6<sup>th</sup>

On next login, the date will be on the 5<sup>th</sup>

## Application Requirements

- Any iOS device with iOS 15.2 or greater. Open 'Settings' and tap 'About' then 'Software Version' to confirm that the OS installed is version 15.2+.
- Internet Access through a wireless Local Area Network (LAN) connection or through a phone service provider. It is strongly recommended to use a Wi-Fi LAN connection when uploading dictations. Minimum bandwidth: LTE/4G data connection; recommended is stable Wi-Fi.
- Communicates over port 443 to <https://mobile.escription-one.com> using TLS 1.2.
