Validation Rules - 'User Groups' Filter

Release Notes

What's new?

DeliverHealth is pleased to announce an enhancement to Validation Rules (Client Maintenance > Advanced Maintenance > Validation Rules).

User Groups Filter

A new filter for MT Validation Rules has been added called 'User Groups'. With this filter, users no longer need to select individual users or open a support ticket requesting new users be added to a rule.

When choosing 'User Groups', users can select 'All', 'Include Selected', or 'Exclude Selected' to determine how the rule will be filtered. The check boxes on the right side of the screen allow users to include or exclude specific User Groups.

All 'active' User Groups will be available for selection.

The screenshot shows the 'Edit Transcription Body Contains Special Characters Validation Rule' interface. The 'User Groups' section is highlighted with a red box. A dropdown menu is open, showing options: 'Include Selected', 'Include All', 'Include Selected', and 'Include All Except Selected'. Below the dropdown is a table with columns for 'User Groups' and 'Included'. The table lists 'Default Settings', 'Pathology', 'Order Pat001', 'User Group 1', and 'User Group 2'. Checkboxes are present in the 'Included' column for 'Pathology', 'User Group 1', and 'User Group 2'. The 'Default Settings' checkbox is unchecked. At the bottom, there is a 'save' button, a 'reset' button, and a footer with the text 'last modified by pgardner on 4/20/2022 3:22:56 PM view history'.

User Groups	Included
Default Settings	<input type="checkbox"/>
Pathology	<input checked="" type="checkbox"/>
Order Pat001	<input type="checkbox"/>
User Group 1	<input checked="" type="checkbox"/>
User Group 2	<input type="checkbox"/>

Clients with many User Groups can type into the filter bar at the top of the screen to limit the results.

The screenshot shows the 'User Groups' section of the application. At the top, there is a 'Filter Type' dropdown set to 'Include All Except Selected'. Below this is a table with the following data:

User Group	Excluded
Default Settings	<input type="checkbox"/>
Pathology	<input checked="" type="checkbox"/>
Order Pat001	<input type="checkbox"/>
User Group 1	<input checked="" type="checkbox"/>
User Group 2	<input type="checkbox"/>

An annotation 'Type here to filter User Groups if necessary' with an arrow points to the empty filter input field at the top of the table.

Application requirements

- Operating system: Windows 10
- Web Browser: IE11 or higher, Chrome, Edge, Firefox
- RAM: 1 GB or higher
- Hard Drive Free Space: 1 GB or higher
